ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II
DEAR UCLA ALUMNI AND FRIENDS,

Are you interested in seeing the most extraordinary array of animals and birds up close? Would you like to get into the sea with a face mask and snorkel to play with sea lions, turtles, and penguins? Would you like to take the most remarkable photos ever? Would you like to kayak along dramatic shorelines with frigatebirds soaring overhead?

If the answer is yes, you should most definitely visit Galápagos. And while you have plenty of choices for how to do that, I believe joining our voyage is the best choice you can make. You travel aboard a newly refitted expedition ship equipped with Zodiac landing craft and kayaks, as well as a host of other cool tools to help you get the most from your experience. The natural history staff and crew that accompany you are very well chosen and trained. It’s not just their knowledge that enhances your experience, but their commitment to making your time remarkable.

For those of you who like to photograph, at any experience level, you’ll have the benefit of exploring with a Lindblad-National Geographic certified photo instructor, a naturalist who has undergone special training to help you improve your skills and ensure you go home with incredible photos.

Your days in Galápagos are never dull. There’s boundless fun to be had here, as well as much to absorb and learn as you explore landscapes from lunar to lush on different, fascinating islands. Count on being highly active, with options to suit every fitness level. You’ll see and experience everything that makes this archipelago legendary: Zodiac-land on pristine beaches, walk, hike, kayak, swim, and snorkel. But note that reading a book in the library or lounging in a hammock on deck are always options, too.

I hope you will join us to explore these magical islands, September 1-10, 2017. I have personally traveled on this voyage if you have any questions. I also invite you to join the optional post-voyage extension to discover the archaeological and natural wonders of Machu Picchu and Peru’s Land of the Inca. To reserve your place, please call us at 310-206-0613 or return the enclosed reservation form.

Sincerely,

Christel Pailet Aragon
Director, Alumni Travel

P.S. Book now and receive a $1,000 air credit per person. See Page 12 for details.
HAVE UP-CLOSE ENCOUNTERS WITH WILDLIFE

The vast number of animals living in the Galápagos archipelago is astonishing, and the reason you have chosen to travel to this remote part of the world. It is the only place on the planet where you can get close to the wildlife in a context of no-fear-at-all. This is a marvelous experience for the human spirit and our itinerary ensures that you will have it often—exploring the key islands in the archipelago and seeing the iconic species that make this region so unique.

You’ll come eye-to-eye with the famous giant tortoises roaming in the wild. Encounter blue-footed boobies nesting along a trail. Marvel at courting, red-throated frigatebirds soaring overhead. Watch your footing to avoid disturbing a sea lion lounging on a white-sand beach. And swim with penguins, marine iguanas, and playful sea lions—experiences that can transform lives.

EXPERIENCE THE GALÁPAGOS UNDERSEA

The Galápagos undersea is a marvel. Snorkelers will enjoy encounters with sea lions, sea turtles, penguins, tons of fish, and even multiple shark species. You’ll have opportunities to snorkel nearly every day, and we’ll provide all your snorkeling gear, including wet suits. Prefer to stay dry? The ship is equipped with a glass-bottom Zodiac. Or let the undersea specialist be your ‘eyes.’ An integral member of the expedition team, he or she will snorkel, shoot video, and present it during evening recap in the lounge for all to enjoy.

Opposite page (clockwise from top): Flamingo; marine iguana; snorkeler shoots a penguin gliding through the water; sea lion mother and pup; endemic Galápagos tortoise.
ENHANCE YOUR EXPERIENCE WITH A TOP TEAM

The Galápagos expedition team, handpicked and trained, is made up of engaging naturalists born and bred in the Galápagos Islands, as well as naturalists who moved to the islands from the mainland or other countries over 20 years ago. They live and breathe Galápagos and are passionate about the nature and conservation of this remote archipelago. They each have a deep understanding of all aspects of Galápagos’ natural and human history, and are experts in relevant areas: ornithology, geology, zoology, and the undersea. In addition to naturalists, your team includes an expedition leader, undersea specialist, Lindblad-National Geographic certified photo instructor, wellness specialist, and video chronicler.

BENEFIT FROM EXPEDITION PHOTOGRAPHY

An exclusive expedition photography program means that you travel with, and benefit from, an onboard Lindblad-National Geographic certified photo instructor. A naturalist who has been trained to teach by the best in the business at National Geographic, he or she will help you better understand your camera settings, the basics of composition, and how to capture incredible wildlife behavior. So whether you use a smartphone, a point-and-shoot, or a sophisticated DSLR, count on returning home with improved skills and your best shots ever.
