Expedition to **Antarctica**

Aboard the Five-Star M.S. Le Soléal
January 21 to February 3, 2017
Dear UCLA Alumni and Friends,

“Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud-banks look like land, icebergs masquerade as islands...” Discover how normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form. From long sunrises that paint the icescape in soft shades of pink and gold to the lingering light of the austral summer, humpback whales, leopard seals and Adélie penguins mingle among sparkling turquoise glaciers and glistening icebergs. Antarctica’s spectacular illuminations reveal the mystique and contrasts of the most unique place on Earth to those fortunate enough to visit.

Retrace the sea-lanes traveled by storied explorers Ernest Shackleton, Roald Amundsen and Robert Falcon Scott as they sought out the final frontier of “The White Continent” on this extraordinary 14-day program featuring a nine-night cruise aboard the exclusively chartered, state-of-the-art, Five-Star, ice-class M.S. LE SOLÉAL (launched in 2013), one of the finest vessels plying Antarctic waters. The custom-crafted M.S. LE SOLÉAL—limited to 90 Suites and Staterooms on this special expedition—showcases private balconies in 95 percent of the all ocean-view, deluxe accommodations, encompasses a new generation of ship design and technology and sets the highest standards in elegance and comfort.

Your Antarctic experience will be enhanced by a comprehensive schedule of exclusive and specially arranged lectures. The onboard expedition team of expert naturalists will guide you on excursions aboard sturdy Zodiac craft to explore the intricate ecosystems and marvelous nuances of the abundant wildlife found ashore, especially penguins and seals, who have no fear of humans.

This once-in-a-lifetime, comprehensive program is the best Antarctic cruise value offered. It features the finest Five-Star accommodations available on any expedition ship, includes all excursions, all meals and complimentary alcoholic and nonalcoholic beverages on board ship and is simply the optimal cruising experience that has sold out quickly year after year. I urge you to place your reservation soon, while Early Booking Savings and space are available!

Sincerely,

Christel Pailet

Wildlife Conservation

The unique international Antarctic Treaty protects Antarctica’s wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty.

To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to over visit rookeries, disturb nesting sites or disrupt research. All visitors will be asked to take—and leave—nothing ashore.

**Cruising Antarctica**

**Friday, January 27 to Tuesday, January 31**

Cruise below the 60th parallel to the outer shores and islands of the Antarctic Peninsula, Earth’s last frontier. Here, explore some of the world’s most pristine wilderness, where towering mountains of ice and lava create precipitous coastlines and islands, and ever-changing patterns of ice stretch as far as the eye can see. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. From spectacular volcanic topography and majestic glaciers to fascinating wildlife and historic outposts, this itinerary reveals the highlights of Earth’s most inaccessible continent for the complete Antarctic experience.

*Please note that the ship’s cruising pattern and positionings are dependent on weather, ice and sea conditions and are subject to change.*

Cruise through breathtaking, glacier-lined Neumayer Channel to rugged Goudier Island. Visit Port Lockroy, originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and converted into a whaling station and scientific base in the 1950s. It is nestled among glistening mountain peaks as high as 6000 feet, and the surrounding grounds are populated by blue-eyed shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as “Base A” and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

Just beyond Port Lockroy, the rocky shores of Jougla Point on Wiencke Island offer a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls. Call at Petermann Island, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the Lemaire Channel, offering views of seven majestic miles of mountains and wildlife combined with fascinating patterns of ice floes. Listen for the low rumbling of Rudolf Glacier as it calves chunks of ice into Neko Harbor, named for an early 20th-century whaling boat. The harbor is surrounded by soaring glaciers and snow-covered mountains and is one of the most dramatic and spectacular sights in Antarctica. Here, make your first “continental landing” in Antarctica.

In Paradise Bay, awesome cliffs of ice descend from the surrounding mountains into the floating iceberg-laden waters along the western coast of the Antarctic Peninsula.

In contrast to sociable Adélie penguins, who congregate in large colonies, the leopard seal cherishes his solitude and independence.
Named by 19th-century whalers who sought shelter in its coves, Paradise Bay is an ideal sanctuary for marine wildlife including humpback whales, crabeater seals and Cape petrels.  

**Deception Island** is actually the rim of a massive dormant volcano crater that encircles a caldera known as Port Foster, where the ship enters through dramatic Neptune’s Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In **Pendulum Cove**, see the steaming, geothermally heated waters of the Antarctic. 

Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay to nearby craters, which offer fascinating insight into the volcanic activity that created the island and played a pivotal role in the natural history of the region.  

One of the smallest but most beautiful of the South Shetland Islands, **Half Moon Island** is a crescent-shaped isle known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island’s colony of chinstrap penguins and enjoy the lingering twilight of the Antarctic summer. 

Attend the Captain’s Farewell Reception. 

**Cruising Drake Passage/Ushuaia, Argentina**  
Wednesday, February 1  
Relax and reflect on board as the ship turns north and crosses the Drake Passage. 

Enjoy lively, informative discussions with the ship’s naturalists. Watch for endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence. 

**Ushuaia/Buenos Aires**  
Thursday, February 2  
Disembark and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires or depart for the U.S. 

**U.S.**  
Friday, February 3  
Arrive in the U.S. 

A visit to Antarctica offers an unparalleled opportunity to get an up-close view of chinstrap penguins in their natural habitat. 

*Left: Look for breaching humpback whales, who migrate to Antarctic waters to feed during the austral summer.*

**Iguazú Falls Post-Program Option**  
February 2 to 6  
The UNESCO World Heritage site of Iguazú Falls is one of the world’s most incredible natural wonders, where more than 275 spectacular waterfalls span nearly two dramatic miles of the Argentina-Brazil frontier. Walk the trails along the edges of these thundering falls and watch as they cascade from as high as 270 feet down verdant cliffs in one of South America’s last remaining virgin rainforests.  

Visit the lush Parque das Aves jungle reserve, a nature lover’s paradise, home to more than 350 species of birds, 66 varieties of mammals and a mind-boggling array of reptiles, fish, butterflies and flora. This exclusive three-night Post-Program Option features one night of accommodations in the deluxe PLAZA HOTEL BUENOS AIRES and two nights in the Five-Star SHERATON IGUAZÚ RESORT & SPA. Buenos Aires round-trip airfare is included.  

*Post-Program Option is available at additional cost. Details will be provided with your reservation confirmation.*
Five-Star M.S. Le Soleal

Five-Star, Ice-Class Small Ship, State-of-the-Art Design

Your Expedition Team

Seasoned naturalists, who have studied and traveled extensively in Antarctica and the most remote regions of the world, accompany you onboard as your Antarctic Expedition Team. Their areas of expertise span marine biology, ornithology, ecology, geology, glaciology, conservation and environmental education, history and photography. The team’s collaborative efforts, experience, particular interest in the world’s ecosystems and enthusiasm for sharing their knowledge make them exceptionally well-suited to lead your Expedition to Antarctica.

Exploration of Antarctica

The intrepid deeds of Europeans Roald Amundsen, Robert Falcon Scott and Ernest Shackleton, Americans Admiral Richard Evelyn Byrd and Lincoln Ellsworth and Canadian Sir Charles Seymour Wright, legendary explorers of Antarctica, have long been recounted in gripping personal tales and history books. Admiral Byrd, scion of a distinguished Virginia family, led the U.S. Antarctic expedition (1928-30) and made the first overflight of the South Pole (1929). Byrd later led three additional expeditions to Antarctica and named a large portion of the continent Marie Byrd Land after his wife.

Another American prominent in the exploration of the South Polar region was Lincoln Ellsworth. This Chicago native made the first flight across Antarctica (1935). In the course of his journey, he discovered the mountain range with the continent’s highest peaks, later named Ellsworth Mountains in his honor.

On land and/or cruise programs, even after full payment, Gohagan reserves the right to increase the tour price in the event of cost increases due to changes in supplier costs, currency fluctuations or fuel or energy surcharges and all such increases are to be paid to Gohagan upon notice to the tour participant of such increases. On post programs which include Gohagan purchased interstate or international air (which originates or returns to the United States), no increased costs will be passed on after final payment even for subsequently imposed governmental tax increases.

BINDING ARBITRATION: Any controversy or claim arising out of or relating to any way to this Release of Liability, Assumption of Risk and Binding Arbitration Agreement, the brochure, or any other information relating in any way to the trip, or to the trip itself, shall be settled solely and exclusively by binding arbitration in Chicago, Illinois, in accordance with the commercial rules of the American Arbitration Association then existent. The arbitral proceeding, the substantive, but not procedural law of Illinois will apply. The arbitrator and not any federal, state, or local court or agency shall have exclusive authority to resolve any dispute relating to the interpretation, applicability, enforceability, conscionability, or formation of this contract, including but not limited to any claim that all or any part of this contract is void or voidable.

ACCEPTANCE OF CONTRACT: By forwarding of deposit, the participant certifies that he/she does not have any mental, physical or other condition of disability that would create a hazard for himself/herself or other participants and accepts the terms contained in this Release of Liability, Assumption of Risk and Binding Arbitration Agreement.
